Capabilities & Specifications

RollCall Pro is a 6th generation legislative voting application tailor-made for boards, councils, and committees of all kinds. Through a WYSIWYN (what you see is what you need) interface in our app, members have what they need at the right time. If we're discussing an agenda item, they have motion & second buttons as well as request to speak options. If we're voting, they see voting buttons. And the Meeting Manager – the program the group's clerk or secretary operates – makes things easy with color-coded navigation (Green means "Go") buttons and micro help on all options. There's even a built-in spellchecker.

The Meeting Manager runs on a standard Windows 7, 8, or 10 PC, and voting members interact with the system using Android or iOS devices or Windows 10 clients. Everyone is connected over a wired or wireless network, though the Internet is not required. If you don't have a network in your meeting facility, all that's needed is a wireless router.

RollCall Pro automates everything:

- Conducting roll call
